

Domain/Store/PaymentHelper.h

```
graph BT; A[Domain/Store/PaymentHelper.h] --> B[Domain/Store/PaymentHelper.cpp]; A --> C[Domain/Store/StoreFactory.cpp];
```

The diagram illustrates the relationship between three source files. At the top is a header file, 'Domain/Store/PaymentHelper.h', which is shaded gray. Below it are two source files: 'Domain/Store/PaymentHelper.cpp' on the left and 'Domain/Store/StoreFactory.cpp' on the right. Blue arrows point from each source file up to the header file, indicating that both source files include the header file.

Domain/Store/PaymentHelper.cpp
